Description of Project: _____

Permit Fee: Residential \$95.00 Commercial \$300.00

Guidelines/Specifications for Lawn Sprinkler Systems

- Submit plot plan showing the location of sprinkler heads and backflow prevention device.
- A licensed tester must certify the backflow prevention device and an original certification test report **must be attached to the backflow device at the time of inspection.**
- Per Ordinance 2007, yard sprinklers systems shall be piped with Schedule 40 PVC for all pressure lines. Field lines not under pressure may be Class 160 PVC piping minimum.
- Items checked at final inspection: connection to City water supply and pressure vacuum break-insulated and supported. Must be PVB, not anti-siphon or check value.
- Work must be started within 90 days of permit issuance date or such permit will be null and void.
- This application must be accompanied by the required documents required by City Ordinance prior to starting construction.
- Work without a permit posted could result in additional fees, work performed without a permit contractor will be assessed a \$350.00 fine plus the cost of the permit.
- Re-inspection fees must be paid prior to re-inspection at a cost of \$60.00.
- This application is non-transferable and expires in 90 days.

I HEREBY ACCEPT ALL CONDITIONS SET ABOVE AND CERTIFY THAT ALL STATEMENTS MADE HEREIN ARE TRUE.
