School Permitting Effective 09/01/2025

This notification is to update regarding a change that came out of Texas SB 1008 for the 89th Legislative Session.

Beginning September 1, 2025, your current permit will no longer be valid. Instead of holding an active permit, you will now be required to pay for two inspections per school year at a cost of \$150.00 each. Please note that these fees must be paid in advance of the inspections being conducted.

How does this impact your school?

- It will not impact your school regarding the inspection or timing of the inspections.
- You will receive the two inspections that are required by the Texas Department of State Health Services (DSHS).
- You will not receive a permit, only each inspection that is conducted

Should you have any question regarding this change, please contact us at health@fulsheartexas.gov or call 281-346-1796

Thank you,
City of Fulshear Environmental Health
